

# **How to Use ChatGPT to Create Stunning Photos in Midjourney**

**Near-automatic, pro-level  
photos, every time.**

**Pete Huang**

# Midjourney is a magical AI image generator.

All of these were generated by Midjourney:

# Normally, you need to write crazy prompts to get good images.

Kris Kashtanova   
@icreatelife

Prompt that motivated me to get Twitter Blue to have long enough captions to share it with you. Even ALT wasn't long enough for it. Few people tried to simplify it and I did too but results were never quite the same. But if you simplify it and it works, please, share. It's one of those spells.. enjoy. Share what you get.

Prompt: a woman in a red dress traveling the world with a flashlight, seeing the stars in indonesia, shooting stars, cinematic, post production, depth of field, cinema photography, cinema, color grading, professional color grading, 55 mm lens, Exquisite detail, , sharp-focus, intricately-detailed, long exposure time, f/8, ISO 100, Shutter speed 1/125, diffused back-light, award winning photography, realistic photography, hyper realistic, unreal engine, realistic lense flare ,real lighting, inscriptions, hyper realistic, 8k, detailed, photography, Cinematic Lighting, Studio Lighting, Beautiful Lighting, Accent Lighting, Global Illumination, Screen Space Global Illumination, Ray Tracing Global Illumination, Optics, Scattering, Glowing, Shadows, Rough, Shimmering, Ray Tracing Reflections, Lumen Reflections, Screen Space Reflections, Diffraction Grading, GB Displacement, Scan Lines, Ray Traced, Ray Tracing Ambient Occlusion, Anti-Aliasing, Fxaa, TAA, RTX, SSAO, Shaders, OpenGL-Shaders, GLSL-Shaders, Post Processing, Post-Production, Cel Shading, Tone Mapping, CGI, VFX, SFX, insanely detailed and intricate, hypermaximalist, elegant, hyper realistic, super detailed --v 4 --q 2

**Now, experts use ChatGPT  
to get photos like these...**

..and these...

**in just 30 seconds of work.**

This is the tutorial on how.

Huge shoutout to **Nick St. Pierre** for sharing this.

Follow him **@nickfloats** on  
Twitter.

# **Before we start...**

You need access to:

**ChatGPT:** [chat.openai.com](https://chat.openai.com)

**Discord**

**Midjourney:**

**All are FREE.**

# ChatGPT Prompt #1:

"Generate an elaborate list the key elements used in a [car] photograph separate by comma, explain in short below the bullet list."

Replace "car" with:

- interior architecture
- food
- fashion
- etc.

# ChatGPT Prompt #1:

PE

Generate an elaborate list the key elements used in a car photograph separate by comma, explain in short below the bullet list.

- Car model/make
- Color
- Lighting
- Angle
- Background
- Reflections
- Surrounding environment
- Weather conditions
- Shadows
- Composition
- Detail shots

# ChatGPT Prompt #1:

## **Warning!**

The list **MUST** have some unique aspects about the topic.

E.g., car photos must have things like "car model" as an element.

**If it spits out a generic list, try it again.**

# ChatGPT Prompt #2:

"Using these elements as columns in a table, create [5] rows of example data where [car model] is [Rolls-Royce Ghost]."

Sure, here are five rows of example data where the car model is Rolls-Royce Ghost:

Car model/make	Color	Lighting	Angle	Background	Reflections	Surrounding environment	Weather conditions	Shadows	Composition
Rolls-Royce Ghost	Black	Soft, diffused light	Low angle	Cityscape	Reflected buildings	Downtown street	Clear skies	Long, dramatic shadows	Rule of thirds
Rolls-Royce Ghost	White	Warm, golden hour	High angle	Beach and ocean	Reflected sunset colors	Coastal road	Clear skies	Soft, subtle shadows	Symmetry
Rolls-Royce Ghost	Blue	Harsh, direct light	Eye-level	Modern building exterior	Reflected glass	Business district	Overcast skies	Bold, geometric shadows	Leading lines
Rolls-Royce Ghost	Silver	Moody, dark light	Low angle	Industrial warehouse	Reflected metal	Gritty urban area	Foggy atmosphere	Long, dramatic shadows	Rule of thirds
Rolls-Royce Ghost	Burgundy	Soft, diffused light	Eye-level	Luxurious hotel entrance	Reflected lights	Upscale neighborhood	Rainy weather	Soft, subtle shadows	Symmetry

# ChatGPT Prompt #3:

"Please write each row as a comma-separated sentence. Append each sentence with --ar 16:9"

Sure, here are the same five rows of example data, each as a comma-separated sentence with "--ar 16:9" appended at the end to indicate the aspect ratio of the photo:

1. Rolls-Royce Ghost, Black, Soft, diffused light, Low angle, Cityscape, Reflected buildings, Downtown street, Clear skies, Long, dramatic shadows, Rule of thirds, Close-up of the hood ornament --ar 16:9.
2. Rolls-Royce Ghost, White, Warm, golden hour, High angle, Beach and ocean, Reflected sunset colors, Coastal road, Clear skies, Soft, subtle shadows, Symmetry, Close-up of the emblem --ar 16:9.
3. Rolls-Royce Ghost, Blue, Harsh, direct light, Eye-level, Modern building exterior, Reflected glass, Business district, Overcast skies, Bold, geometric shadows, Leading lines, Close-up of the grille --ar 16:9.
4. Rolls-Royce Ghost, Silver, Moody, dark light, Low angle, Industrial warehouse, Reflected metal, Gritty urban area, Foggy atmosphere, Long, dramatic shadows, Rule of thirds, Close-up of the side view --ar 16:9.
5. Rolls-Royce Ghost, Burgundy, Soft, diffused light, Eye-level, Luxurious hotel entrance, Reflected lights, Upscale neighborhood, Rainy weather, Soft, subtle shadows, Symmetry, Close-up of the wheels --ar 16:9.

# Now, copy and paste each prompt to Midjourney

/imagine

prompt Rolls-Royce Ghost, Black, Soft, diffused light, Low angle, Cityscape, Reflected buildings, Downtown street, Clear skies, Long, dramatic shadows, Rule of thirds, Close-up of the hood ornament --ar 16:9

# Want more?

## Just ask ChatGPT to create more.

PE

Create 10 more rows.

Sure, here are ten more rows of example data:

1. Rolls-Royce Ghost, Dark Blue, Natural light, Eye-level, Rustic countryside, Reflected trees, Rural road, Cloudy skies, Soft shadows, Golden ratio, Close-up of the Spirit of Ecstasy --ar 16:9.
2. Rolls-Royce Ghost, Red, Warm, golden hour, High angle, Mountainous landscape, Reflected sunset colors, Curvy road, Clear skies, Long, dramatic shadows, Diagonal composition, Close-up of the hood emblem --ar 16:9.
3. Rolls-Royce Ghost, Dark Grey, Moody, dark light, Low angle, Abandoned factory, Reflected rust, Urban decay, Overcast skies, Harsh shadows, Rule of thirds, Close-up of the exhaust pipes --ar 16:9.
4. Rolls-Royce Ghost, Ivory, Soft, diffused light, Eye-level, Luxury hotel entrance, Reflected architecture, Upscale neighborhood, Sunny weather, Soft, subtle shadows, Symmetry, Close-up of the interior detail --ar 16:9.
5. Rolls-Royce Ghost, Silver, Harsh, direct light, Low angle, Skyscraper skyline, Reflected glass, Busy downtown street, Overcast skies, Bold, geometric shadows, Leading lines, Close-up of the taillights --ar 16:9.

**That's it!**
