Venture Forward: Game Changing through Innovation

As the world emerges from the shadows of the pandemic into a new dawn of opportunity, funders and founders are aspiring new breakthroughs from the lingering global market uncertainties, economic and geopolitical issues. They all look up to unlimited potential of Web3, AI and emerging technologies to break through challenges, turning setbacks into springboards. How do they endure for a brighter future?

Hong Kong has become a hub for global innovation, with a vibrant ecosystem of technology startups and an ideal launchpad for ventures targeting the vast potential of Greater China and beyond. What does Hong Kong need to do to continue its rise as Asia's leading venture city?

Join the leading venture capitalists, innovators, and thinkers at CVCF to explore the next horizon of inno-venture with fresh visions.

Investor Matching

favorably rated CVCF as "Good" to "Excellent"

indicated interests to join next year's CVCF

would recommend CVCF to colleagues/business partners

attendees rated the Investor Matching & the Investor Matching platform as - "Good" to "Excellent"

attendees rated "Good" to "Excellent" on the quality of investors/projects

Appreciative Speaker Feedbacks

Albert Yip

Chairman,
Syndicate Capital Group

"Cyberport is truly a community builder, bridging our young professionals, entrepreneurs, investors and other stakeholders together. Need to say CVCF is a breeding platform for our future unicorns!"

Paul Chau

Head of Ecosystem Building and
Global Capital & Markets,
Tsing Tsai of China Capital
(Hong Kong) Limited

"The increasing sophistication of capital markets provide technology with wider options including conventional and new ways of listing, connectivity to SPAC and M&A. Cyberport Venture Capital Forum is a strong platform with distinguished speakers and guests are invaluable to technology companies which will benefit greatly in formulating and executing its capital market plans."

Gary Chan

Member of ESG Group,
PwC Global Advisors

"At times of great changes and uncertainty, it becomes ever more important that we have the opportunities to gain more insights and widen our network allowing us to drive our businesses forward more effectively. Thank you Cyberport for bringing us all together under CVCF to achieve just that."

Sandy Tan

Head of Ecosystem,
Institutional Banking Group,
DBS Bank Hong Kong

"At DBS, we see incredible opportunity for Hong Kong to strengthen its standing as an I&T capital hub. CVCF is a wonderful platform that brings together the leaders and innovators from across Hong Kong and the rest of the world. We look forward to finding new ways to support the continued growth of Hong Kong's fintech and startup community."

Prof. Gregg Li

Fellow and Executive Chairman,
The Orion Astropreneur
Space Academy (Hong Kong)

"Quality of discussion is a key for any good conference. At CVCF, we got hit with a few tough questions and that further enhanced our understanding and dialogue of the new entrepreneurial world."

Stephen Jue

President & Co-Founder,
PineLeaf Bay

"CVCF is the premier event for connecting investors, entrepreneurs and other stakeholders. We made new connections, shared and learned new ideas, and had a fantastic time."

Philip Law

Lead Partner, Investment Bank,
Citigroup (21, Commerce & Tech),
Technology, Media and Telecom Division,
Hong Kong, Germany

"The pandemic has underscored the urgent need for tech solutions in a variety of areas, including healthcare, fintech, energy tech, and entertainment, to name just a few. This makes reliance on innovators and entrepreneurs more important than ever. There is strong confidence that Hong Kong will roar back in the next 12 months. There are needs not only at the cutting edge of companies, transforming how they do business, but also – and most importantly – in recognizing the strategic importance of ongoing innovation, particularly in the ever-changing world of technology."

Karena Belin

Co-Founder & COO/COVIRI,
AngelHub

"At AngelHub, we love meeting like-minded changemakers, fellow investors, and tech companies with impactful solutions during CVCF. We continue to be bullish on Web3, Fintech, and tech-empowered ESG solutions and we believe that the companies building, adding value, and enduring during difficult times will be the winners of tomorrow."

"CVCF offers great opportunities to connect and learn with active investors in fast growing verticals such as web3, Fintech and ESG/Tech. In only 2 years, AngelHub has invested in over 20 fast scaling tech companies, already recorded 2 exits with a return of x33 multiplier on average and allowed our large network of professional investors to co-invest with us."

Yvonne Wong

General Manager,
Qianhai International
Business Services Limited

"A successful start-up company should have its own GBA story. We recommend start-up teams to have more understanding of national policies such as the Belt and Road Initiatives, 14th Five Year Plan and Greater Bay Area Outline Development Plan. In 2022, Qianhai has launched different policy measures to support the growth of Hong Kong companies in Qianhai. Furthermore, we signed a MOU with the Cyberport to offer mutual support for startups from both sides. Our e-innovation services in Hong Kong provide much convenience for companies to get their Qianhai Business License in Hong Kong."

Henson Tsai

Founder & CEO,
QuantFlow

"For other startups in the fundraising process, it's important to help each other through your growth and to give before you take more. Beyond defining the key goals for what you want to achieve, you need to figure out how to get there, which includes identifying the right metrics to focus on and setting a detailed hiring plan."
